

Customer Experience—Shipped Order

Wonder what customers see when they get your invitation to purchase cookies?

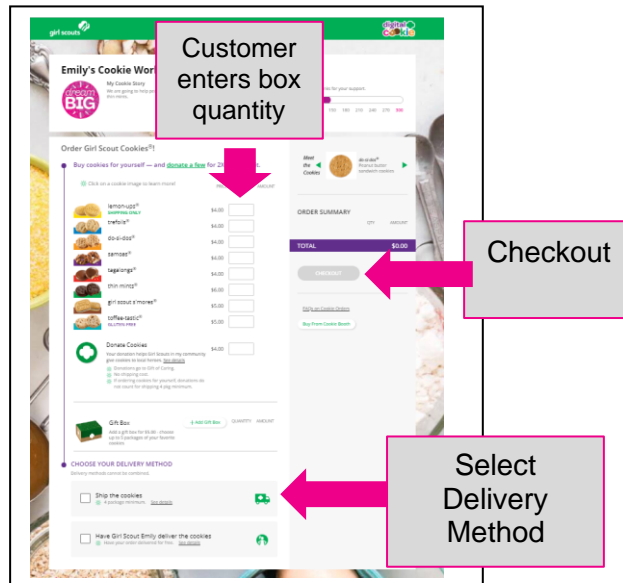

1

A customer receives a girl’s email announcing that cookie season is open. The customer clicks the “Buy Cookies Online” link and is taken to the girl’s Digital Cookie site.

2

As the customer orders boxes, the total amount updates. Once the order is completed, the customer selects the delivery method, then clicks the “Checkout” button.

3

The customer is taken to a “Check Out” screen to complete basic shipping and billing information. Once they complete that, they click the “Continue” button.

PLACE ORDER

5

The customer then sees an order confirmation screen that includes the option of placing a new order in case they want to send some to a friend!

6

Customers will receive a series of emails about their order.

First they get an order confirmation:

Then they receive an email when the cookies have shipped and are on their way.

An email thanking the customer for his/her support and asking them to complete a quick survey can be sent by the girl at the end of the sale.

If the order is a donation or contains a donation, the emails will reflect that as well.

Remind your Girl Scout a personal note helps create a satisfied customer who is likely to purchase cookies from her again.
