

# Become a Cookie Entrepreneur with Girl Scouts

As the largest girl-led entrepreneurial program in the world, the Girl Scout Cookie Program gives girls the ability to fund their troop adventures while learning to think like a business owner. Plus, as they get creative with their selling skills, make new friends and enjoy fun experiences, they are also learning five key skills through participation in the cookie program:

● **Goal Setting** ● **Decision Making** ● **Money Management** ● **People Skills** ● **Business Ethics**

Along with the Girl Scout Cookie Program, USA Girl Scouts Overseas provides girls with opportunities to find their passion and make a difference in their local community. From creating art and exploring the outdoors to discovering STEM and participating in service projects, there is so much to be a part of.
